

# Cardinia Crescent Reserve

## Landscape Concept Plan

The design increases the amount of shade canopy available, cooling surface temperatures but also expanding on the local environment. A play space will be developed including multi-play structures, swings, see-saw, climbing play using recycled tyres and complimented by some natural play. Seating, picnic setting and connecting pathways will also be delivered during the development to improve the quality and amenity of the existing reserve.

### LEGEND

EXISTING TREE

EXISTING GRAVEL PATH

EXISTING VEHICLE EXCLUSION FENCING

EXISTING SHELTER WITH  
NEW PICNIC SETTING

PROPOSED TREE
