

# Killarney Lakes Reserve Minor Upgrade Community Feedback

Between the 17 October and 28 October 2022, Melton City Council shared a proposed landscape plan with local residents to upgrade Killarney Lakes Reserve. Feedback was collected via an online survey and a flyer in the mail. Below is a summary of the feedback that we received. This feedback helps Council to understand what is important to the community and why, as well as identify any other opportunities for improvements. The feedback was reviewed and used to update the park design.

## Project Scope

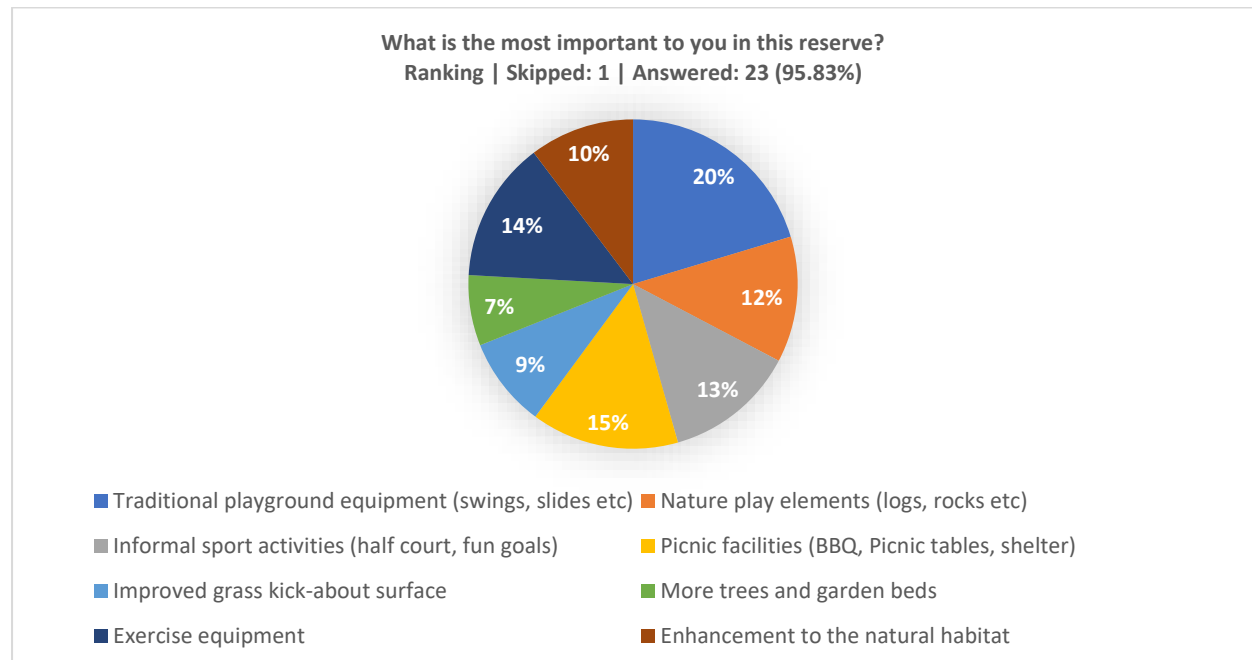

The project scope includes the replacement of existing play equipment, improvements to associated amenity and the inclusion of additional understorey planting and trees for shade.

## Feedback summary

Community feedback indicated support for the inclusion of traditional play equipment, nature play, and picnic facilities. In particular, there was strong support for swings that catered to multiple age groups.

Council acknowledges the requests support for a flying fox, exercise station and BBQ within this space. This could not be supported within the existing project budget but these requests will be referred to future parks programs.

## Project Proposal Feedback
